

System-Critical Response on a Global Scale.

From network components that keep voice, video and data systems online, to precision repair and e-scrap provisioning, ADDvantage Technologies Group provides the system-critical response that has made us the On Hand, On Demand™ source in the global cable and satellite industries. Through our partnerships with leading OEMs, including Cisco (formerly Scientific-Atlanta) and Motorola, ADDvantage Technologies Group is uniquely positioned to provide cable operators with On-Hand, On-Demand™ access to new, refurbished and hard-to-find network equipment.

ADDvantage Technologies Group is comprised of eight companies that offer immediate access to multiple, comprehensive product inventories of new, legacy, and reconditioned components from the world's leading manufacturers of hybrid fiber coaxial (HFC) network equipment. As a master stocking distributor and value-added reseller—and through our partnerships with leading OEMs—ADDvantage Technologies is uniquely positioned to deliver a single-source product and repair solution when they're needed most.

Fast, dependable, just-in-time access, delivery and response have made ADDvantage Technologies Group a lifeline for the world's largest cable and network television providers, telephone companies, integrators, high-speed data and wireless service companies and private institutions.

To Our Shareholders

Fiscal 2009 was a challenging economic year by any measure. The economic turmoil affected countries, companies and households. ADDvantage and our customers were not immune to the challenges. Our customers faced significant, strategic decisions in fiscal 2009, including major reductions on spending for new equipment and services. Until the recession reduced the availability of capital, the communications industry was in a continued phase of growth. And, as a leading provider of new and refurbished equipment, ADDvantage was strategically in a position to benefit. This growth was supported by new housing subdivisions across the U.S. that needed new communications infrastructure to support them as well as competition between telephone and cable companies both marketing for the same customers that included bundling their triple-play offer of telephone, cable and internet.

History has taught us that you don't change long-term strategy based on a short-term

economic downturn. However, we also believe that in 2009 we needed to work differently. In order to execute our strategy, reducing expenses in this environment was a financial priority. We carefully monitored costs and were focused on our net income and remaining cash flow positive. Although the challenging economic environment continues to have a direct impact on our business, we continue to adjust our business model to ensure we are successful. Our net sales for 2009 were \$42.2 million compared to \$56.4 million in 2008, and we reported net income of \$3.0 million for fiscal 2009, or \$0.30 per diluted share, compared to \$4.5 million for fiscal 2008, or \$0.44 per diluted share. Despite the downturn in net sales and the overall economic conditions, we still achieved profitable results, met our debt covenants, generated positive cash flows, paid down our line of credit and debt by \$4.7 million and purchased over 200,000 shares of our common stock through our stock buyback program.

In addition, ADDvantage has retained our position within the industry as one of the leading “On Hand On Demand” sources of cable television equipment, carrying one of the most comprehensive mixes of inventory of any reseller in the industry. We view our balance sheet as a source of strength and competitive advantage, especially during economic downturns.

Looking ahead to fiscal 2010, we believe that the cost reduction efforts that have been put in place in 2009 will continue to offset the economic pressures impacting inventory sales and service and help us remain profitable. When the economy improves and the credit crisis eases, we expect that our customers will restart or initiate the necessary bandwidth upgrades and plant expansions they have put on hold due to the recession. ADDvantage will be ready to meet their needs as this occurs.

We want to thank our talented workforce of dedicated employees who have come to together to achieve our short and long-

terms goals. Management and our Board of Directors recognize that ADDvantage is only as good as its employees. Their hard work, skills and innovation will enable us to continue to move forward bringing world-class products and services to the market.

Forward-Looking Statements

Certain matters discussed in this report constitute forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, including statements which relate to, among other things, expectations of the business environment in which ADDvantage Technologies Group, Inc. (the “Company”) operates, projections of future performance, perceived opportunities in the market and statements regarding our goals and objectives and other similar matters. The words “estimates,” “projects,” “intends,” “expects,” “anticipates,” “believes,” “plans” and similar expressions are intended to identify forward-looking statements. These forward-looking statements are found at various places throughout this report and the documents incorporated into it by reference. These and other statements, which are not historical facts, are hereby identified as “forward-looking statements” for purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. These statements are subject to a number of risks, uncertainties and developments beyond our control or foresight, including changes in the trends of the cable television industry, technological developments, changes in the economic environment generally, the growth or formation of competitors, changes in governmental regulation or taxation, changes in our personnel and other such factors. Our actual results, performance or achievements may differ significantly from the results, performance or achievements expressed or implied in the forward-looking statements. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

Background

We (through our subsidiaries) distribute and service a comprehensive line of electronics and hardware for the cable television (“CATV”) industry. The products we sell and service are used to acquire, distribute, receive and protect the communications signals carried on fiber-optic, coaxial cable and wireless distribution systems. Our customers provide an array of communications services including television, high-speed data (internet) and telephony, to single family dwellings, apartments and institutions such as hospitals, prisons, universities, schools, cruise boats and others.

We continue to expand market presence by creating a network of regionally based subsidiaries that focus on servicing customers in different geographic markets. The current subsidiary network includes Tulsat Corporation (“Tulsat”), NCS Industries, Inc. (“NCS”), Tulsat-Atlanta LLC, ADDvantage Technologies Group of Missouri, Inc. (dba “ComTech Services”), Tulsat-Nebraska, Inc., ADDvantage Technologies Group of Texas, Inc. (dba “Tulsat Texas”), Jones Broadband International, Inc. (dba “Tulsat-West”) and Tulsat-Pennsylvania LLC (dba “Broadband Remarketing International”).

Several of our subsidiaries, through their long relationships with the original equipment manufacturers (“OEMs”) and specialty repair facilities, have established themselves as value-added resellers (“VARs”). Tulsat, located in Broken Arrow, Oklahoma, is an exclusive Cisco Master Stocking Distributor for certain current and legacy products offered within their Service Provider Video Technology Group (“SPVTG”) and distributes most of Cisco’s other SPVTG products. Tulsat has also been designated an authorized third party Cisco-SPVTG repair center for select products. NCS, located in Warminster, Pennsylvania, is a leading distributor of Motorola broadband products. Our subsidiaries also sell products from other OEMs including Standard, Blonder-Tongue, RL Drake, Corning-Gilbert, Promax, Quintech and Alpha.

In addition to offering a broad range of new products, we also purchase and sell surplus and refurbished equipment that becomes available in the market as a result of cable operator system upgrades or an overstock in their warehouses. We maintain one of the industry’s largest inventories of new and refurbished equipment, which allows us to deliver products to our customers within a short period of time. We continue to upgrade our new product offerings to stay in the forefront of the communications broadband technology revolution.

Our subsidiaries all operate technical service centers specializing in Cisco-SPVTG, Motorola, Magnavox and power supply repairs.

Overview of the Industry

We participate in markets for equipment sold primarily to cable operators (called multiple system operators or “MSOs”) and other communication companies. As internet usage by households continues to increase, more customers are electing to switch from dial-up access services to high-speed services, particularly those offered by MSOs in the United States. Within the last few years, many MSOs now offer a “triple-play” bundle of services that includes voice, video and high-speed data over a single network with the objective of capturing higher average revenues per subscriber. To offer these expanded services, MSOs have invested significantly to convert their systems to digital networks and continue to upgrade their cable plants to increase the speed of their communication signals. As a result, many MSOs have well-equipped networks capable of delivering symmetrical high-bandwidth video, two-way high speed data service and telephony to most of their subscribers through their existing hybrid fiber coaxial infrastructure.

We believe that we have been able to provide many of the products and services sought by MSOs as they establish and expand their services and territories. Our relationships with our principal vendors, Cisco and Motorola, provide us with products that are important to cable operators as they maintain and expand their systems. These relationships and our inventory are key factors, we believe, in our prospects for revenue and profit growth.

We are focused on the opportunities provided by technological changes resulting from the implementation of fiber-to-the home by several large telephone companies, the continued expansion of bandwidth signals by MSOs, and sales to customers in Central and South America. We continue to stock legacy CATV equipment as well as new digital and optical broadband telecommunications equipment from major suppliers, so we can provide our customers one-stop shopping, access to "hard-to-find" products and reduce customer downtime because we have the product in stock and can deliver to the customer location the next day. Our experienced sales support staff has the technical know-how to consult with our customers regarding solutions for various products and configurations. Through our seven service centers that provide warranty and out-of-warranty repairs, we continue to reach new customers.

Recent Business Developments

We are hopeful that the overall economy will start to recover soon, and we are starting to see some positive signs. However, as of the end of fiscal year 2009, economic factors that are most relevant to our MSO customers, including housing trends and unemployment, have not significantly improved or improved at all. Therefore, the downturn in the economy and credit market crisis have adversely impacted our equipment sales, since our MSO customers continued to delay plant expansions and bandwidth upgrades as part of their efforts to conserve cash and limit capital expenditures. In addition, the lack of demand for equipment has also allowed the larger original equipment manufacturers to better manage their delivery schedules, which has reduced their need to utilize the on-hand inventory maintained by their distributor networks. Our sales of refurbished digital converter boxes also declined due primarily to the decline in the Latin American economy. All of these factors contributed to an overall decrease of \$14.0 million in net equipment sales in 2009 as compared to 2008.

We continue to carry one of the most comprehensive mixes of inventory of cable equipment of any reseller in the industry, and we are able to deploy this equipment as needed. We believe the breadth of our inventory gives us a competitive advantage in the market. Our mix of inventory at fiscal year-end 2009 consisted of \$24.7 million new products and \$10.6 million of refurbished products. We also have a reserve of \$2.2 million for obsolete and excess inventory. If the overall economy starts to recover in the near term, we believe that we have the inventory on hand to satisfy our customers’ needs in the right quantities and mix. However, if the weak economy continues and our MSO customers continue to delay or reduce their capital projects, we will need to evaluate the potential of increasing our inventory reserve due to excess quantities on hand.

Despite a slowdown in net equipment sales over the past year due to the overall economic conditions, we continued to achieve profitable results, meet our debt covenants and generate positive cash flow, even after paying down our debt \$4.7 million. We believe this demonstrates the strength of our business model, solid customer relationships and management’s ability to keep costs in line with demand. The demand for our new and refurbished products among large and small MSO customers continues to be impacted by the downturn in the economy. However, we expect that as the economy improves and the credit crisis eases, our customers will begin to increase their capital expenditures for their necessary bandwidth upgrades and plant expansions. We will be ready to meet our customers’ needs as this occurs.

In 2000, our Board of Directors authorized the repurchase of up to \$1.0 million of outstanding shares of our common stock from time to time in the open market at prevailing market prices or in privately negotiated transactions. During fiscal year 2009, we acquired in the open market and in a privately negotiated transaction a total of 202,864 shares of our Company's common stock at an average price of \$1.74 per share. We believe that the trading price of our common stock during the past fiscal year was not fully reflective of the value of the Company's business and future prospects, and therefore, the repurchase of common stock was in the best interest of the Company and its shareholders. The repurchased shares of common stock will be held in treasury and used for general corporate purposes including possible use in our employee stock plans or for acquisitions. Repurchases are made in compliance with the safe harbor provisions of Rule 10b-18, which limits the timing, volume, price and method of stock repurchases. When combined with the treasury shares purchased in prior years, the Company can purchase additional shares that have a combined value of up to \$0.6 million under this program.

Under the terms of our current agreement with Cisco, Tulsat is authorized to carry and resell the entire line of Cisco-SPVTG current and legacy equipment and also continues to be the exclusive distributor for select Cisco-SPVTG headend and transmission products for United States customers through January 15, 2010. We have every expectation that we will continue to be a top distributor for Cisco. Tulsat has a Repair Center Agreement with Cisco for its SPVTG products through June 2010. Tulsat also has a Third Party Service Agreement with Cisco. This service agreement allows Tulsat to act as an authorized service provider for select Cisco-SPVTG equipment within the United States.

Products and Services

We offer our customers a wide range of new, surplus new and refurbished products that are used in connection with video, telephone and internet data signals.

Headend products are used by a system operator for signal acquisition, processing and manipulation for further transmission. Among the products we offer in this category are satellite receivers (digital and analog), integrated receiver/decoders, demodulators, modulators, antennas and antenna mounts, amplifiers, equalizers and processors. The headend of a television signal distribution system is the "brain" of the system; the central location where the multi-channel signal is initially received, converted and allocated to specific channels for distribution. In some cases, where the signal is transmitted in encrypted form or digitized and compressed, the receiver will also be required to decode the signal.

Fiber products are used to transmit the output of cable system headend to multiple locations using fiber-optic cable. In this category, we currently offer products including optical transmitters, fiber-optic cable, receivers, couplers, splitters and compatible accessories. These products convert radio frequencies to light frequencies and launch them on optical fiber. At each receiver site, an optical receiver is used to convert the signals back to RF VHF frequencies for distribution to subscribers.

Distribution products are used to permit signals to travel from the headend to their ultimate destination in a home, apartment, hotel room, office or other terminal location along a distribution network of fiber optic or coaxial cable. Among the products we offer in this category are transmitters, receivers, line extenders, broadband amplifiers, directional taps and splitters.

Digital converters and modems are boxes placed inside the home that receive record and transmit video, data and telephony signals. Among the products we offer in this category are remanufactured Cisco and Motorola digital converter boxes and modems.

We also inventory and sell to our customers other hardware such as test equipment, connector and cable products.

Revenues by Geographic Area

Our revenues by geographic areas were as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
United States	\$ 38,431,079	\$ 48,597,910	\$ 59,756,983
Mexico, Canada, Central America, South America and Other	<u>3,812,513</u>	<u>7,850,651</u>	<u>5,889,102</u>
	<u>\$ 42,243,592</u>	<u>\$ 56,448,561</u>	<u>\$ 65,646,085</u>

Revenues attributed to geographic areas are based on the location of the customer. All of our long-lived assets are located within the United States.

Sales and Marketing

In 2009, sales of new products represented 64% of our total revenues and re-manufactured product sales represented 23%. Repair and other services contributed the remaining 13% of revenues.

We market and sell our products to franchise and private MSOs, telephone companies, system contractors and other resellers. Our sales and marketing are predominantly performed by the internal sales and customer service staff of our subsidiaries. We also have outside sales representatives located in various geographic areas. The majority of our sales activity is generated through personal relationships developed by our sales personnel and executives, referrals from manufacturers we represent, advertising in trade journals, telemarketing and direct mail to our customer base in the United States. We have developed contacts with major MSOs in the United States, and we are constantly in touch with these operators regarding their plans for upgrading or expansion as well as their needs to either purchase or sell equipment.

We market ourselves as an “On Hand – On Demand” distributor. We maintain the largest inventory of new and used cable products of any reseller in the industry and offer our customers same day shipments. We believe our investment in on-hand inventory, our network of regional repair centers and our experienced sales and customer service team create a competitive advantage for us.

We continue to add products and services to maintain and expand our current customer base in North America, Central and South America, Asia and other international markets. We believe there is growth potential for sales of new and legacy products in the international market as some operators choose to upgrade to new larger bandwidth platforms, while other customers, specifically in developing markets, desire less expensive legacy new and refurbished products. We extend credit on a limited basis to international customers that purchase products on a regular basis and make timely payments. However, for most international sales we require prepayment of sales or letters of credit confirmed by United States banks prior to shipment of products.

Suppliers

In 2009, we purchased approximately \$12.4 million of new inventory directly from Cisco and approximately \$2.5 million of new inventory directly from Motorola. These purchases represented approximately 42% of our total inventory purchases for 2009. In addition to purchasing inventory from other original equipment manufacturers, we also purchase used or surplus new inventory from MSOs who have upgraded or are in the process of upgrading their systems.

Seasonality

Many of the products that we sell are installed outdoors and can be damaged by storms and power surges. Consequently, we experience increased demand on certain product offerings during the months between late spring and early fall when severe weather tends to be more prominent than at other times during the year.

Competition and Working Capital Practices.

The CATV industry is highly competitive with numerous companies competing in various segments of the market. There are a number of competitors throughout the United States buying and selling new and remanufactured CATV equipment similar to the products that we offer. However, most of these competitors do not maintain the large inventory that we carry due to working capital limitations. We maintain the practice of carrying large quantities of inventory to meet both the customers' urgent needs and mitigate the extended lead times of our suppliers. In terms of sales and inventory on hand, we are the largest reseller in this industry, providing both sales and service of new and re-manufactured CATV equipment.

We also compete with our OEM suppliers as they sell directly to our customers. Our OEM suppliers have a competitive advantage over us as they can sell products at lower prices than we offer. As a result, we are often considered a secondary supplier by large MSOs and telephone companies when they are making large equipment purchases or upgrades. However, for smaller orders or items that are needed to be delivered quickly, we often hold an advantage over these suppliers as we carry most inventory in stock and can have it delivered in a very short timeframe.

Working capital practices in the industry center on inventory and accounts receivable. We choose to carry a large inventory and continue to reinvest excess cash flow in new inventory to expand our product offerings. The greatest need for working capital occurs when we make bulk purchases of surplus new and used inventory, or when our OEM suppliers offer additional discounts on large purchases. Our working capital requirements are generally met by cash flow from operations and a bank line of credit which currently permits borrowings up to \$7.0 million. We expect to have sufficient funds available from these sources to meet our working capital needs for the foreseeable future.

Significant Customers

We are not dependent on one or a few customers to support our business. Our customer base consists of over 1,600 active accounts. Sales to our largest customer accounted for approximately 7% of our revenues in 2009. Approximately 22% of our revenues for both 2009 and 2008 were derived from sales of products and services to our five largest customers. There are approximately 6,000 cable television systems within the United States alone, each of which is a potential customer.

Personnel

At September 30, 2009, we had 140 employees. Management considers its relationships with its employees to be excellent. Our employees are not unionized, and we are not subject to any collective bargaining agreements.

Item 2. Properties.

Each subsidiary owns or leases property for office, warehouse and service center facilities.

- Broken Arrow, Oklahoma – On November 20, 2006, Tulsat purchased a facility consisting of an office, warehouse and service center of approximately 100,000 square feet on ten acres, with an investment of \$3.3 million, financed by a loan of \$2.8 million, due in monthly payments through 2021 at an interest rate of LIBOR plus 1.4%. In December 2007, Tulsat completed the construction of a 62,500 square foot warehouse facility on the rear of its existing property in Broken Arrow, OK. The new facility cost approximately \$1.6 million to complete and the construction was financed with cash flow from operations.

Tulsat also continues to lease warehouse space of approximately 56,000 square feet from an entity that is controlled by David E. Chymiak, Chairman of the Company's Board of Directors, and Kenneth A. Chymiak, President and Chief Executive Officer of the Company. The lease expired on September 20, 2008 and is now on a month-to-month basis with a monthly payment of \$7,500.

- Deshler, Nebraska – Tulsat-Nebraska owns a facility consisting of land and an office, warehouse and service center of approximately 8,000 square feet.

- Warminster, Pennsylvania – NCS owns its facility consisting of an office, warehouse and service center of approximately 12,000 square feet, with an investment of \$0.6 million, financed by a loan of \$0.4 million of which \$0.2 million is outstanding at September 30, 2009, due in monthly payments through 2013 at an interest rate of prime minus 0.25%. NCS also leases property of approximately 2,000 square feet, with monthly rental payments of \$1,273 through December 31, 2009 and \$1,298 beginning January 1, 2010 through December 31, 2010. NCS also rents on a month-to-month basis another property of approximately 2,000 square feet, with monthly rental payments of \$1,250.
- Sedalia, Missouri – ComTech Services owns land and an office, warehouse and service center of approximately 42,300 square feet. In October 2007, ComTech Services completed the construction of an 18,000 square foot warehouse facility on the back of its existing property in Sedalia, MO. The new facility cost approximately \$0.4 million to complete and the construction was financed with cash flow from operations.
- New Boston, Texas – Tulsat-Texas owns land and an office, warehouse and service center of approximately 13,000 square feet.
- Suwannee, Georgia – Tulsat-Atlanta leases an office and service center of approximately 5,000 square feet, with monthly lease payments of \$3,360 through January 31, 2011.
- Oceanside, California – Jones Broadband leases an office, warehouse and service center of approximately 15,000 square feet for \$12,991 a month. The lease term ends November 30, 2010.
- Chambersburg, Pennsylvania – Broadband Remarketing International leases an office, warehouse and service center of approximately 11,000 square feet for \$6,137 a month. The lease term ends June 30, 2010.

We believe that our current facilities are adequate to meet our needs.

Item 3. Legal Proceedings.

From time to time in the ordinary course of business, we have become a defendant in various types of legal proceedings. We do not believe that these proceedings, individually or in the aggregate, will have a material adverse effect on our financial position, results of operations or cash flows.

Item 4. Submission of Matters to a Vote of Security Holders.

There were no matters submitted to a vote of our shareholders in the fourth quarter of fiscal year 2009.

PART II

Item 5. Market for Registrants Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

The table sets forth the high and low sales prices on the NASDAQ Global Market under the symbol “AEY” for the quarterly periods indicated.

<u>Year Ended September 30, 2009</u>	<u>High</u>	<u>Low</u>
First Quarter	\$2.65	\$1.02
Second Quarter	\$2.40	\$1.25
Third Quarter	\$1.99	\$1.30
Fourth Quarter	\$2.32	\$1.61
<u>Year Ended September 30, 2008</u>		
First Quarter	\$9.00	\$5.21
Second Quarter	\$6.29	\$3.45
Third Quarter	\$4.25	\$3.00
Fourth Quarter	\$3.57	\$2.09

Holders

As of September 30, 2009, we have approximately 70 shareholders of record and, based on information received from brokers, there are approximately 1,700 beneficial owners of our common stock.

Dividend policy

We have never declared or paid a cash dividend on our common stock. It has been the policy of our Board of Directors to use all available funds to finance the development and growth of our business. The payment of cash dividends in the future will be dependent upon our earnings and financial requirements and other factors deemed relevant by our Board of Directors.

Securities authorized for issuance under equity compensation plans

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	148,850	\$3.43	652,645
Equity compensation plans not approved by security holders	0	0	0
Total	148,850	\$3.43	652,645

Purchases of equity securities by the issuer and affiliated purchasers.

The following table presents information regarding the shares of our common stock we purchased during each of the three calendar months ended September 30, 2009.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan (1)	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plan (1)
July 1 – 31, 2009	–	–	–	\$669,771
August 1 – 31, 2009	40,000	\$1.82	40,000	\$593,721
September 1 – 30, 2009	–	–	–	\$593,721

1. We have one program, which was announced in 2000 after approval by our Board of Directors, to repurchase up to \$1.0 million of outstanding shares of our common stock from time to time in the open market at prevailing market prices or in privately negotiated transactions. The shares purchased during these periods were purchased in a privately negotiated transaction pursuant to this program. The repurchased shares of common stock will be held in treasury and used for general corporate purposes including possible use in our employee stock plans or for acquisitions. This program has no expiration date.

Item 6. Selected Financial Data.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our consolidated historical financial statements and the notes to those statements that appear elsewhere in this report. Certain statements in the discussion contain forward-looking statements based upon current expectations that involve risks and uncertainties, such as plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors.

General

We are a value added reseller for select Cisco and Motorola broadband new products, and we are a distributor for several other manufacturers of CATV equipment. We also specialize in the sale of surplus new and refurbished previously-owned CATV equipment to CATV operators and other broadband communication companies. It is through our development of these vendor relationships that we also market our products and services to the larger cable multiple system operators (“MSOs”) and telecommunication companies. These customers provide an array of different communications services as well as compete in their ability to offer subscribers “triple play” transmission services including data, voice and video.

Overview

We are hopeful that the overall economy will start to recover soon, and we are starting to see some positive signs. However, as of the end of fiscal year 2009, economic factors that are most relevant to our MSO customers, including housing trends and unemployment, have not significantly improved or improved at all. Therefore, the downturn in the economy and credit market crisis have adversely impacted our equipment sales, since our MSO customers continued to delay plant expansions and bandwidth upgrades as part of their efforts to conserve cash and limit capital expenditures. In addition, the lack of demand for equipment has also allowed the larger original equipment manufacturers to better manage their delivery schedules, which has reduced their need to utilize the on-hand inventory maintained by their distributor networks. Our sales of refurbished digital converter boxes also declined due primarily to the decline in the Latin American economy. All of these factors contributed to an overall decrease of \$14.0 million in net equipment sales in 2009 as compared to 2008.

We continue to carry one of the most comprehensive mixes of inventory of cable equipment of any reseller in the industry, and we are able to deploy this equipment as needed. We believe the breadth of our inventory gives us a competitive advantage in the market. Our mix of inventory at fiscal year-end 2009 consisted of \$24.7 million new products and \$10.6 million of refurbished products. We also have a reserve of \$2.2 million for obsolete and excess inventory. If the overall economy starts to recover in the near term, we believe that we have the inventory on hand to satisfy our customers’ needs in the right quantities and mix. However, if the weak economy continues and our MSO customers continue to delay or reduce their capital projects, we will need to evaluate the potential of increasing our inventory reserve due to excess quantities on hand.

Despite a decrease in net equipment sales over the past year due to the overall economic conditions, we continued to achieve profitable results, meet our debt covenants and generate positive cash flow, even after paying down our debt \$4.7 million. We believe this demonstrates the strength of our business model, solid customer relationships and management’s ability to keep costs in line with demand. The demand for our new and refurbished products among large and small MSO customers continues to be impacted by the downturn in the economy. However, we expect that as the economy improves and the credit crisis eases, our customers will begin to increase their capital expenditures for their necessary bandwidth upgrades and plant expansions. We will be ready to meet our customers’ needs once this occurs.

Results of Operations

Year Ended September 30, 2009, compared to Year Ended September 30, 2008 (all references are to fiscal years)

Total Net Sales. Total net sales declined \$14.2 million, or 25%, to \$42.2 million for 2009 from \$56.4 million for 2008. Sales of new equipment decreased \$7.6 million, or 22%, to \$27.1 million in 2009 from \$34.7 million in 2008. Refurbished sales decreased \$6.4 million, or 40%, to \$9.7 million in 2009 from \$16.1 million in 2008. The decrease in sales of refurbished products includes a \$3.8 million decline in the sales of our digital converter boxes. Net repair service revenues decreased \$0.2 million, or 3%, to \$5.5 million for 2009 from \$5.7 million in 2008. The repair revenue decline for 2009 was primarily due to efforts by the large and small MSO customers to conserve cash by limiting the authorization for equipment repairs due to the downturn in the economy, offset by our efforts to promote and expand this line of business.

Cost of Sales. Cost of sales includes (i) the costs of new and refurbished equipment, on a weighted average cost basis, sold during the period, (ii) the equipment costs used in repairs, (iii) the related transportation costs, and (iv) the labor and overhead directly related to these sales. Cost of sales decreased \$10.5 million, or 26%, to \$29.3 million for 2009 from

\$39.8 million for 2008. Cost of sales this year were 69% of total net sales compared to 71% last year. The decrease in cost of sales was directly related to the decrease in equipment sales during 2009. Cost of sales was also impacted by decreased charges to our reserve for obsolete and excess inventory of \$0.7 million to \$1.0 million in 2009 from \$1.7 million in 2008 due primarily to additional charges in 2008 of \$0.5 million for Cisco legacy converter boxes that were deemed unsellable and \$0.3 million for unsellable inventory at our Tulsat-West location.

Gross Profit. Gross profit in 2009 decreased \$3.7 million to \$12.9 million from \$16.6 million in 2008. The decreased gross profit was primarily attributable to the decline in equipment sales, partially offset by the absence of the \$0.8 million additional charges in 2008 to the reserve for obsolete and excess inventory discussed above. Gross profit margins increased to 31% from 29% due primarily to sales of higher margin products and higher margin headend repairs.

Operating, Selling, General and Administrative Expenses. Operating, selling, general and administrative expenses include personnel costs (including fringe benefits, insurance and taxes), occupancy, communication, professional services and charges for bad debts, among other less significant cost categories. Operating, selling, general and administrative expenses decreased by \$1.0 million to \$7.2 million in 2009 from \$8.2 million in 2008. The decrease was primarily due to reductions in payroll expenses of \$0.5 million, rent of \$0.2 million and professional services of \$0.2 million, partially offset by an increase in the allowance for bad debt of \$0.1 million. At September 30, 2009, we have reduced our headcount for full-time employees by approximately 10% as compared to our headcount at September 30, 2008.

Income from Operations. Income from operations decreased \$2.7 million, or 32%, to \$5.8 million for 2009 from \$8.5 million in 2008.

Interest Expense. Interest expense for 2009 was \$0.9 million compared to \$1.0 million in 2008. Interest expense decreased on our line of credit and \$2.8 million term loan as a result of lower interest rates for 2009 as compared with 2008 as well as an overall lower utilization of our line of credit in 2009 as compared to 2008. This decrease was offset by an amendment on November 27, 2007 to our \$8.0 million term note with our primary financial lender to increase the term note to \$16.3 million and extend the maturity date to November 30, 2012. In connection with the amendment, we also entered into an interest rate swap agreement with our primary financial lender to effectively fix the rate on this debt at 5.92%.

Income Taxes. The provision for income taxes for 2009 decreased \$1.0 million to \$1.8 million, or an effective rate of 37.5%, for 2009 from \$2.8 million, or an effective rate of 37.5%, for 2008.

Year Ended September 30, 2008, compared to Year Ended September 30, 2007

Total Net Sales. Total net sales declined \$9.2 million, or 14%, to \$56.4 million for 2008 from \$65.6 million for 2007. Sales of new equipment decreased \$10.3 million, or 23%, to \$34.7 million in 2008 from \$45.0 million in 2007, driven by decreases in sales of \$11.1 million by our top MSO and telephone customers. Refurbished sales increased \$0.8 million, or 5%, to \$16.1 million in 2008 from \$15.3 million in 2007. This increase came primarily from sales of refurbished digital converter boxes of \$5.4 million in 2008 as compared to \$4.1 million in 2007. Net repair service revenues increased \$0.3 million, or 5%, to \$5.7 million for 2008 from \$5.4 million in 2007. The increase in service revenues results from higher volumes of equipment failures as certain customers delay equipment upgrades and then incur additional out of warranty equipment failures.

Cost of Sales. Cost of sales includes (i) the costs of new and refurbished equipment, on a weighted average cost basis, sold during the period, (ii) the equipment costs used in repairs, (iii) the related transportation costs, and (iv) the labor and overhead directly related to these sales. Cost of sales decreased \$4.5 million, or 10%, to \$39.8 million for 2008 from \$44.3 million for 2007. Cost of sales this year were 71% of total net sales compared to 68% last year. The decrease in cost of sales was directly related to the decrease in new equipment sales during 2008. Cost of sales was also impacted by increased charges of \$1.0 million to \$1.7 million in 2008 from \$0.7 million in 2007 to our reserve for obsolete and excess inventory due primarily to a \$0.5 million reserve for Cisco legacy converter boxes that were deemed unsellable and a \$0.3 million reserve for unsellable inventory at our Tulsat-West location.

Gross Profit. Gross profit in 2008 decreased \$4.7 million to \$16.6 million from \$21.3 million in 2007. The decreased gross profits were attributed to the decline in sales of new products. Gross profit margins decreased to 29% from 32% due primarily to product line mix changes and increased price pressures from other competitors due to the overall decline

in CATV equipment purchasing during 2008. In addition, our gross margin was impacted due to increased charges of \$1.0 million to our reserve for obsolete and excess inventory.

Operating, Selling, General and Administrative Expenses. Operating, selling, general and administrative expenses include all personnel costs, including fringe benefits, insurance and business taxes, occupancy, communication, professional services and charges for bad debts, among other less significant cost categories. Operating, selling, general and administrative expenses decreased by \$0.6 million to \$8.2 million in 2008 from \$8.8 million in 2007. The decrease was primarily due to reduced payroll expenses associated with bonuses and commissions, rental costs, property taxes and charges to bad debt for a combined savings of \$0.7 million. These savings were partially offset by an increase in professional services of \$0.2 million due primarily to consulting expenses incurred to assist us in meeting the internal control assessment requirements of the Sarbanes Oxley Act of 2002.

Income from Operations. Income from operations decreased \$4.1 million to \$8.5 million for 2008 from \$12.6 million in 2007. This decrease in income was primarily attributable to the decline in gross profit.

Interest Expense. Interest expense for 2008 was \$1.0 million compared to \$0.6 million in 2007. Interest expense increased \$0.4 million primarily due to an amendment on November 27, 2007 to our \$8.0 million term note with our primary financial lender to increase the term note to \$16.3 million and extend the maturity date to November 30, 2012. In connection with the amendment, we also entered into an interest rate swap agreement with our primary financial lender to effectively fix the rate on this debt at 5.92%. The proceeds from this amended term note of \$12.0 million were used to redeem all of the issued and outstanding shares of the Company's Series B 7% Cumulative Preferred Stock, which were beneficially owned by David E. Chymiak, Chairman of the Company's Board of Directors, and Kenneth A. Chymiak, President and Chief Executive Officer of the Company.

Income Taxes. The provision for income taxes for 2008 decreased \$1.8 million to \$2.8 million, or an effective rate of 37.5%, for 2008 from \$4.6 million, or an effective rate of 38.0%, for 2007. Our estimated effective tax rate for 2008 decreased slightly as we expect to utilize certain investment tax credits, which will result in reduced state income taxes.

Liquidity and Capital Resources

We finance our operations primarily through internally generated funds and a bank line of credit of \$7.0 million. During 2009, we generated approximately \$5.7 million of cash flow from operations. The cash flow from operations was impacted by a \$2.5 million net decrease in our accounts receivable. Our trade receivables decreased from 2008 due primarily to lower revenues. Despite the overall economic conditions, we have not experienced a significant increase in our bad debt write-offs. However, due to the economic downturn, we have increased our allowance for doubtful accounts by \$47,000 for 2009. The cash flow from operations was used primarily for debt service and repurchase of our Company's stock discussed below.

The \$7.0 million line of credit will continue to be used to finance our working capital requirements as necessary. At September 30, 2009, there was not a balance outstanding under the line of credit. Borrowings under the line of credit are limited to the lesser of \$7.0 million or the net balance of 80% of qualified accounts receivable plus 50% of qualified inventory less any outstanding term note balances. Under these limitations, our total line of credit available borrowing base was \$7.0 million at September 30, 2009. The entire outstanding balance on the revolving credit facility is due on maturity.

During 2009, we made principal payments totaling \$1.9 million primarily on our two term loans under our Revolving Credit and Term Loan Agreement with our primary lender. The \$16.3 million term loan is payable over a five year period through November 2012 with quarterly payments of \$0.4 million plus accrued interest. In connection with this term loan, we entered into an interest rate swap to effectively fix the interest rate on this term loan at 5.92%. The notional value of the interest rate swap amortizes quarterly with payments that mirror the \$16.3 million term loan. The \$2.8 million term loan requires monthly payments of \$15,334 plus accrued interest through November 2021.

In 2000, our Board of Directors authorized the repurchase of up to \$1.0 million of outstanding shares of our common stock from time to time in the open market at prevailing market prices or in privately negotiated transactions. During fiscal year 2009, we acquired in the open market and in a privately negotiated transaction a total of 202,864 shares of our Company's common stock at an average price of \$1.74 per share. We believe that the trading price of our common stock

during the past fiscal year was not fully reflective of the value of the Company's business and future prospects, and therefore, the repurchase of common stock was in the best interest of the Company and its shareholders. The repurchased shares of common stock will be held in treasury and used for general corporate purposes including possible use in our employee stock plans or for acquisitions. Repurchases are made in compliance with the safe harbor provisions of Rule 10b-18, which limits the timing, volume, price and method of stock repurchases. When combined with the treasury shares purchased in prior years, the Company can purchase additional shares that have a combined value of up to \$0.6 million under this program.

We believe that our cash flow from operations, existing cash balances and our existing line of credit provide sufficient liquidity and capital resources to meet our working capital and debt payment needs.

Critical Accounting Policies and Estimates

Note 1 to the Consolidated Financial Statements in this Form 10-K for fiscal year 2009 includes a summary of the significant accounting policies or methods used in the preparation of our Consolidated Financial Statements. Some of those significant accounting policies or methods require us to make estimates and assumptions that affect the amounts reported by us. We believe the following items require the most significant judgments and often involve complex estimates.

General

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We base our estimates and judgments on historical experience, current market conditions, and various other factors we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates under different assumptions or conditions. The most significant estimates and assumptions relate to the carrying value of our inventory and, to a lesser extent, the adequacy of our allowance for doubtful accounts.

Inventory Valuation

Our position in the industry requires us to carry large inventory quantities relative to annual sales, but it also allows us to realize high overall gross profit margins on our sales. We market our products primarily to MSOs and other users of cable television equipment who are seeking products for which manufacturers have discontinued production or cannot ship new equipment on a same-day basis. Carrying these large inventory quantities represents our largest risk.

Our inventory consists of new and used electronic components for the cable television industry. Inventory cost is stated at the lower of cost or market, and our cost is determined using the weighted-average method. At September 30, 2009, we had total inventory of approximately \$35.4 million, consisting of approximately \$24.7 million in new products and approximately \$10.7 million in used or refurbished products against which we have a reserve of \$2.2 million for excess and obsolete inventory, leaving us a net inventory of \$33.2 million.

We are required to make judgments as to future demand requirements from our customers. We regularly review the value of our inventory in detail with consideration given to rapidly changing technology which can significantly affect future customer demand. For individual inventory items, we may carry inventory quantities that are excessive relative to market potential, or we may not be able to recover our acquisition costs for sales that we do make. In order to address the risks associated with our investment in inventory, we review inventory quantities on hand and reduce the carrying value when the loss of usefulness of an item or other factors, such as obsolete and excess inventories, indicate that cost will not be recovered when an item is sold. During 2009, we increased our reserve for excess and obsolete inventory by approximately \$1.0 million. In addition during 2009, we wrote down the carrying value of certain inventory items by approximately \$0.8 million to reflect deterioration in the market price of that inventory. If actual market conditions are less favorable than those projected by management, and our estimates prove to be inaccurate, we could be required to increase our inventory reserve and our gross margins could be adversely affected.

Inbound freight charges are included in cost of sales. Purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs and other inventory expenditures are included in operating expenses, since the amounts involved are not considered material.

Accounts Receivable Valuation

Management judgments and estimates are made in connection with establishing the allowance for doubtful accounts. Specifically, we analyze the aging of accounts receivable balances, historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in our customer payment terms. Significant changes in customer concentration or payment terms, deterioration of customer credit-worthiness, or weakening in economic trends could have a significant impact on the collectability of receivables and our operating results. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The reserve for bad debts was \$0.3 million at September 30, 2009 and September 30, 2008. At September 30, 2009, accounts receivable, net of allowance for doubtful accounts, amounted to approximately \$4.2 million.

Impact of Recently Issued Accounting Standards

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162*, which is codified under FASB ASC 105, *Generally Accepted Accounting Principles*. This standard established the FASB ASC as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Company has updated its references to GAAP in its financial statements issued for the fiscal year ended September 30, 2009. The adoption of FASB ASC 105 did not impact the Company's financial position or results of operations.

In May 2009, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 165, *Subsequent Events*, which is now codified under FASB ASC 855, *Subsequent Events*. FASB ASC 855 establishes general standards of accounting for and disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events. FASB ASC 855 is effective for interim and annual reporting periods ending after June 15, 2009. We have adopted the new disclosure requirements in our consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. The purpose of this standard is to provide a consistent framework for determining what accounting principles should be used when preparing United States generally accepted accounting principles financial statements. SFAS No. 162 categorizes accounting pronouncements in a descending order of authority. In the instance of potentially conflicting accounting principles, the standard in the highest category must be used. SFAS No. 162 was effective November 13, 2008. The adoption of this standard did not have a material impact on our financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment to FASB Statement No. 133*, which is now codified under FASB ASC 815, *Derivatives*. This standard requires additional disclosures about the objectives of the derivative instruments and hedging activities, the method of accounting for such instruments and related hedged items on our financial position, financial performance, and cash flows. This statement was effective for us beginning January 1, 2009. The adoption of this standard did not have a material impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, which is now codified under FASB ASC 820, *Fair Value Measurements and Disclosures*. FASB ASC 820 defines fair value, establishes a consistent framework for measuring fair value, expands disclosures about fair value measurements and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. FASB ASC 820 does not require any new fair value measurements. This codification was effective for us beginning October 1, 2008. We have adopted the new disclosure requirements in our consolidated financial statements.

Off-Balance Sheet Arrangements

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
ADDvantage Technologies Group, Inc.

We have audited the accompanying consolidated balance sheets of ADDvantage Technologies Group, Inc. and subsidiaries (the "Company") as of September 30, 2009 and 2008, and the related consolidated statements of income and comprehensive income, changes in shareholders' equity and cash flows for each of the three years in the period ended September 30, 2009. In connection with our audits of the financial statements, we have also audited the financial statement schedule of ADDvantage Technologies Group, Inc., listed in Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits. Hogan & Slovacek, P.C. audited the financial statements of the Company as of September 30, 2008, and the related consolidated statements of income and comprehensive income, changes in shareholders' equity and cash flows for each of the two years in the period ended September 30, 2008, and merged with Tullius Taylor Sartain & Sartain LLP to form HoganTaylor LLP effective January 7, 2009.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of ADDvantage Technologies Group, Inc. and subsidiaries as of September 30, 2009 and 2008, and the consolidated results of their operations and their cash flows for each of the three years in the period ended September 30, 2009, in conformity with accounting principles generally accepted in the United States of America.

Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Description of Business and Summary of Significant Accounting Policies

Description of business

ADDvantage Technologies Group, Inc. and its subsidiaries (the “Company”) sells new, surplus, and re-manufactured cable television equipment throughout North America, Central America, South America and, to a substantially lesser extent, other international regions that utilize the same technology. In addition, the Company is also a repair center for various cable companies.

Summary of Significant Accounting Policies

Principles of consolidation and segment reporting

The consolidated financial statements include the accounts of ADDvantage Technologies Group, Inc. and its subsidiaries: Tulsat Corporation, NCS Industries, Inc., Tulsat-Atlanta LLC, ADDvantage Technologies Group of Missouri, Inc. (dba ComTech Services), Tulsat-Nebraska, Inc., ADDvantage Technologies Group of Texas, Inc. (dba Tulsat-Texas), Jones Broadband International, Inc. (dba Tulsat-West) and Tulsat-Pennsylvania LLC (dba Broadband Remarketing International). All significant inter-company balances and transactions have been eliminated in consolidation. In addition, each subsidiary represents a separate operating segment of the Company and is aggregated for segment reporting purposes.

FASB Accounting Standards Codification

The Company follows accounting standards set by the Financial Accounting Standards Board (“FASB”). The FASB sets generally accepted accounting principles (“GAAP”) that the Company follows to ensure that the Company’s financial condition, results of operations and cash flows are consistently reported. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (“Codification” or “ASC”). The FASB finalized the Codification effective for periods ending on or after September 15, 2009.

Cash and cash equivalents

Cash and cash equivalents includes demand and time deposits, money market funds and other marketable securities with maturities of three months or less when acquired.

Accounts receivable

Trade receivables are carried at original invoice amount less an estimate made for doubtful accounts based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by regularly evaluating individual customer receivables and considering a customer’s financial condition, credit history and current economic conditions. Trade receivables are written off against the allowance when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. The Company generally does not charge interest on past due accounts.

Inventory valuation

Inventory consists of new and used electronic components for the cable television industry. Inventory is stated at the lower of cost or market. Market is defined principally as net realizable value. Cost is determined using the weighted-average method. The Company records inventory reserve provisions to reflect inventory at its estimated realizable value based on a review of inventory quantities on hand, historical sales volumes and technology changes. These reserves are to provide for items that are potentially slow-moving, excess or obsolete.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Property and equipment

Property and equipment consists of office equipment, warehouse and service equipment and buildings with estimated useful lives of 5 years, 10 years and 40 years, respectively. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Leasehold improvements are amortized over the remainder of the lease agreement. Gains or losses from the ordinary sale or retirement of property and equipment are recorded in other income (expense). Repairs and maintenance costs are generally expensed as incurred, whereas major improvements are capitalized. Depreciation and amortization expense was \$0.4 million, \$0.4 million and \$0.3 million for the years ended September 30, 2009, 2008 and 2007, respectively.

Goodwill

Goodwill represents the excess of cost over fair value of the assets of businesses acquired. The Company performed annual goodwill impairment tests, which indicated that goodwill was not impaired as of September 30, 2009 or 2008.

Income taxes

The Company provides for income taxes in accordance with the liability method of accounting pursuant to ASC Topic 740, *Income Taxes*. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax carryforward amounts. Management provides a valuation allowance against deferred tax assets for amounts which are not considered “more likely than not” to be realized.

Revenue recognition and product line reporting

The Company’s principal sources of revenues are from sales of new, refurbished or used equipment and repair services. As a stocking distributor for several cable television equipment manufacturers, the Company offers a broad selection of inventoried and non-inventoried products. The Company’s sales of different products fluctuate from year to year as its customers’ needs change. Because the Company’s product line sales change from year to year, the Company does not report sales by product line for management reporting purposes and does not disclose sales by product line in these financial statements.

The Company recognizes revenue for product sales when title transfers, the risks and rewards of ownership have been transferred to the customer, the fee is fixed and determinable and the collection of the related receivable is probable, which is generally at the time of shipment. The stated shipping terms are FOB shipping point per the Company's sales agreements with its customers. Accruals are established for expected returns based on historical activity. Revenue for services is recognized when the repair is completed and the product is shipped back to the customer.

Derivatives

FASB ASC 815, *Derivatives and Hedging*, requires that all derivatives, whether designated in hedging relationships or not, be recorded on the balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized in earnings. If the derivative is designated as a cash flow hedge, the effective portions of the changes in the fair value of the derivative are recorded in Other Comprehensive Income and are recognized in the income statement when the hedged item affects earnings. Ineffective portions of changes in the fair value of cash flow hedges are recognized in other income (expense). The Company's objective of holding derivatives is to minimize the risks of interest rate fluctuation by using the most effective methods to eliminate or reduce the impact of this exposure.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Freight

Amounts billed to customers for shipping and handling represent revenues earned and are included in Net New Sales Income, Net Refurbished Sales Income and Net Service Income in the accompanying Consolidated Statements of Income. Actual costs for shipping and handling of these sales are included in Cost of Sales.

Advertising costs

Advertising costs are expensed as incurred. Advertising expense was \$0.3 million, \$0.3 million and \$0.4 million for the years ended September 30, 2009, 2008 and 2007, respectively.

Management estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Any significant, unanticipated changes in product demand, technological developments or continued economic trends affecting the cable industry could have a significant impact on the value of the Company's inventory and operating results.

Concentrations of credit risk

The Company holds cash with one major financial institution, which at times exceeds FDIC insured limits. Historically, the Company has not experienced any loss due to such concentration of credit risk.

Other financial instruments that potentially subject the Company to concentration of credit risk consist principally of trade receivables. Concentrations of credit risk with respect to trade receivables are limited because a large number of geographically diverse customers make up the Company's customer base, thus spreading the trade credit risk. The Company controls credit risk through credit approvals, credit limits and monitoring procedures. The Company performs in-depth credit evaluations for all new customers but does not require collateral to support customer receivables. The Company had no customer in 2009 that contributed in excess of 10% of the total net sales. Sales to foreign (non-U.S. based customers) total approximately \$3.8 million, \$7.9 million and \$5.9 million for the years ended September 30, 2009, 2008 and 2007, respectively. In 2009, the Company purchased approximately 35% of our inventory from Cisco, formerly Scientific-Atlanta, and approximately 7% of our inventory from Motorola. The concentration of suppliers of our inventory subjects us to risk.

Employee stock-based awards

FASB ASC 718, *Stock Compensation*, requires all share-based payments to employees, including grants of employee stock options, be recognized in financial statements based on their grant date fair value over the requisite service period. The Company determines the fair value of the options issued, using the Black-Scholes valuation model, and amortizes the calculated value over the vesting term of the stock options. Compensation expense for stock-based awards is included in the operating, selling, general and administrative expense section of the consolidated statements of income and comprehensive income.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Earnings per share

Basic earnings per share are based on the sum of the average number of common shares outstanding and issuable restricted and deferred shares. Diluted earnings per share include any dilutive effect of stock options, restricted stock and convertible preferred stock.

Fair value of financial instruments

The carrying amount of cash and cash equivalents approximates fair value due to the short-term maturity of these instruments. The carrying amounts of accounts receivable and accounts payable approximate fair value due to their short maturities. The carrying value of the Company's line of credit approximates fair value since the interest rate fluctuates periodically based on a floating interest rate. Management believes that the carrying value of the Company's borrowings approximate fair value based on credit terms currently available for similar debt.

Impact of recently issued accounting standards

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162*, which is codified under FASB ASC 105, *Generally Accepted Accounting Principles*. This standard established the FASB ASC as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Company has updated its references to GAAP in its financial statements issued for the fiscal year ended September 30, 2009. The adoption of FASB ASC 105 did not impact the Company's financial position or results of operations.

In May 2009, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 165, *Subsequent Events*, which is now codified under FASB ASC 855, *Subsequent Events*. FASB ASC 855 establishes general standards of accounting for and disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events. FASB ASC 855 is effective for interim and annual reporting periods ending after June 15, 2009. We have adopted the new disclosure requirements in our consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. The purpose of this standard is to provide a consistent framework for determining what accounting principles should be used when preparing United States generally accepted accounting principles financial statements. SFAS No. 162 categorizes accounting pronouncements in a descending order of authority. In the instance of potentially conflicting accounting principles, the standard in the highest category must be used. SFAS No. 162 was effective November 13, 2008. The adoption of this standard did not have a material impact on our financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment to FASB Statement No. 133*, which is now codified under FASB ASC 815, *Derivatives*. This standard requires additional disclosures about the objectives of the derivative instruments and hedging activities, the method of accounting for such instruments and related hedged items on our financial position, financial performance, and cash flows. This statement was effective for us beginning January 1, 2009. The adoption of this standard did not have a material impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, which is now codified under FASB ASC 820, *Fair Value Measurements and Disclosures*. FASB ASC 820 defines fair value, establishes a consistent framework for measuring fair value, expands disclosures about fair value measurements and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. FASB ASC 820 does not require any new fair value measurements. This codification was effective for us beginning October 1, 2008. We have adopted the new disclosure requirements in our consolidated financial statements.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Note 2 – Inventories

Inventories at September 30, 2009 and 2008 are as follows:

	<u>2009</u>	<u>2008</u>
New	\$24,723,788	\$23,563,135
Refurbished	10,638,836	12,073,283
Allowance for excess and obsolete inventory	<u>(2,196,000)</u>	<u>(1,958,000)</u>
	<u>\$33,166,624</u>	<u>\$33,678,418</u>

New inventory includes products purchased from the manufacturers plus “surplus-new”, which are unused products purchased from other distributors or multiple system operators. Refurbished inventory includes factory remanufactured, Company remanufactured and used products.

The Company regularly reviews inventory quantities on hand, and a departure from cost is required when the loss of usefulness of an item or other factors, such as obsolete and excess inventories, indicate that cost will not be recovered when an item is sold. The Company recorded charges to allow for obsolete inventory during the fiscal years ended September 30, 2009, 2008 and 2007, increasing the cost of sales by approximately \$1.0 million, \$1.7 million and \$0.7 million, respectively.

Note 3 – Income Taxes

The provision (benefit) for income taxes for the years ended September 30, 2009, 2008 and 2007 consists of:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Current	\$1,853,000	\$3,026,000	\$4,139,000
Deferred	<u>(40,000)</u>	<u>(225,000)</u>	<u>419,000</u>
	<u>\$1,813,000</u>	<u>\$2,801,000</u>	<u>\$4,558,000</u>

The following table summarizes the differences between the U.S. federal statutory rate and the Company’s effective tax rate for financial statement purposes for the years ended September 30, 2009, 2008 and 2007:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Statutory tax rate	34.0%	34.0%	34.0%
State income taxes, net of U.S. federal tax benefit	4.7%	4.6%	4.5%
Tax credits and exclusions	<u>(1.2%)</u>	<u>(1.1%)</u>	<u>(0.5%)</u>
Company’s effective tax rate	<u>37.5%</u>	<u>37.5%</u>	<u>38.0%</u>

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Deferred tax assets at September 30, 2009 and 2008 consist of the following:

	<u>2009</u>	<u>2008</u>
Net operating loss carryforwards	\$ 826,000	\$ 916,000
Financial basis in excess of tax basis of certain assets	(574,000)	(589,000)
Accounts receivable	116,000	96,000
Inventory	1,015,000	966,000
Interest rate swap	404,000	112,000
Other, net	<u>239,000</u>	<u>193,000</u>
	<u>\$2,026,000</u>	<u>\$1,694,000</u>
Deferred tax assets are classified as:		
Current	\$1,282,000	\$1,069,000
Noncurrent	<u>744,000</u>	<u>625,000</u>
	<u>\$2,026,000</u>	<u>\$1,694,000</u>

Utilization of the Company's net operating loss carryforward, totaling approximately \$2.1 million at September 30, 2009, to reduce future taxable income is limited to an annual deductible amount of approximately \$0.3 million. The net operating loss carryforward expires in varying amounts from 2010 to 2020.

In accordance with FASB ASC 740, *Income Taxes*, the Company records net deferred tax assets to the extent the Company believes these assets will more likely than not be realized. In making such determination, the Company considers all available positive and negative evidence, including scheduled reversals of deferred tax liabilities, projected future taxable income, tax planning strategies and recent financial performance. The Company has concluded, based on its historical earnings and projected future earnings, that it will be able to realize the full effect of the deferred tax assets and no valuation allowance is needed.

Note 4 – Accrued Expenses

Accrued expenses as of September 30, 2009 and 2008 are as follows:

	<u>2009</u>	<u>2008</u>
Employee costs	\$724,349	\$ 791,095

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Note 5 – Line of Credit and Notes Payable

Line of Credit

The Company has a \$7.0 million Revolving Line of Credit (“Line of Credit”) under the Revolving Credit and Term Loan Agreement with its primary financial lender. The outstanding balance under the Line of Credit was \$0.0 million and \$2.8 million at September 30, 2009 and 2008, respectively. The September 30, 2008 amount outstanding included \$1.8 million of outstanding checks that would have been funded by the Line of Credit upon clearing the bank. The Line of Credit requires quarterly interest payments based on the prevailing 30-day LIBOR rate plus 1.4% (1.66% at September 30, 2009), and the interest rate is reset monthly. Borrowings under the line of credit are limited to the lesser of \$7.0 million or the net balance of 80% of qualified accounts receivable plus 50% of qualified inventory less any outstanding term note balances. Under these limitations, the Company’s total Line of Credit available borrowing base was \$7.0 million at September 30, 2009. Among other financial covenants, the credit agreement provides that the Company must maintain a fixed charge ratio of coverage (EBITDA to total fixed charges) of not less than 1.25 to 1.0, determined quarterly. The Line of Credit is collateralized by inventory, accounts receivable, equipment and fixtures and general intangibles.

Notes Payable

The Revolving Credit and Term Loan Agreement includes two separate term loans, which are also collateralized by inventory, accounts receivable, equipment and fixtures and general intangibles. The first term loan is a \$2.8 million term loan. The outstanding balance under this note was \$2.2 million and \$2.4 million at September 30, 2009 and 2008, respectively. This note is due on November 20, 2021, with monthly principal payments of \$15,334 plus accrued interest. The interest rate is the prevailing 30-day LIBOR rate plus 1.4% (1.66% at September 30, 2009) and is reset monthly.

The second term loan under the Revolving Credit and Term Loan Agreement is a \$16.3 million term loan. The outstanding balance of this term loan was \$13.4 million and \$15.1 million at September 30, 2009 and 2008, respectively. This note is due November 30, 2012, with quarterly payments of approximately \$0.4 million plus accrued interest. The interest rate is the prevailing 30-day LIBOR rate plus 1.4% (1.66% at September 30, 2009).

The Company’s other note payable of \$0.2 million at both September 30, 2009 and 2008, secured by real estate, is due in monthly payments through 2013. The interest rate is prime minus 0.25% (3.00% at September 30, 2009).

The carrying value of the Company’s borrowings approximates fair value as the interest rate fluctuates periodically based on a floating interest rate.

The aggregate minimum maturities of notes payable and the line of credit for each of the next five years are as follows:

2010	\$1,863,767
2011	1,863,767
2012	1,863,767
2013	8,762,728
2014	184,008
Thereafter	<u>1,318,604</u>
Total	<u>\$15,856,641</u>

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Note 6 – Derivative Financial Instruments

On November 27, 2007, the Company entered into an interest rate swap agreement to effectively fix the interest rate on the \$16.3 million term note at 5.92%. The notional value of the interest rate swap amortizes quarterly with payments that mirror the \$16.3 million term loan. Upon entering into this interest rate swap, the Company designated this derivative as a cash flow hedge by documenting the Company’s risk management objective and strategy for undertaking the hedge along with methods for assessing the swap’s effectiveness in accordance with FASB ASC 815, *Derivatives and Hedging*. The following table presents certain information regarding our interest rate swap.

	<u>Amount of Loss Recognized in OCI on Derivative, Net of Tax</u>		<u>Amount of Loss Recognized in Accumulated OCI, Net of Tax</u>	
	Year Ended September 30, 2009	2008	September 30, 2009	September 30, 2008
Interest rate swap agreement	\$(457,741)	\$(225,302)	\$(645,685)	\$(187,944)

At September 30, 2009, the notional value of the swap was \$13.4 million and the fair value of the interest rate swap was approximately \$1.0 million, which is included in other liabilities on the Company’s Consolidated Balance Sheet.

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a consistent framework for measuring fair value and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 – Quoted prices for identical assets in active markets or liabilities that we have the ability to access. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Inputs are other than quoted prices in active markets included in Level 1 that are either directly or indirectly observable. These inputs are either directly observable in the marketplace or indirectly observable through corroboration with market data for substantially the full contractual term of the asset or liability being measured.
- Level 3 – Inputs that are not observable for which there is little, if any, market activity for the asset or liability being measured. These inputs reflect management’s best estimate of the assumptions market participants would use in determining fair value.

Our interest rate swap is an over-the-counter instrument and is classified in the Level 2 hierarchy as the fair value can be estimated from executed transactions or broker quotes corroborated by other market data. These broker quotes are based on observable market prices at which similar transactions could currently be executed.

Note 7 – Stock-Based Compensation and Preferred Stock

Plan Information

The 1998 Incentive Stock Plan (the “Plan”) provides for awards of stock options and restricted stock to officers, directors, key employees and consultants. The Plan provides that upon any issuance of additional shares of common stock by the Company, other than pursuant to the Plan, the number of shares covered by the Plan will increase to an amount equal to 10% of the then outstanding shares of common stock. Under the Plan, option prices will be set by the Board of Directors and may be greater than, equal to, or less than fair market value on the grant date.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

At September 30, 2009, 1,024,656 million shares of common stock were reserved for the exercise of, or lapse of restrictions on, stock awards under the Plan. Of the shares reserved for exercise of, or lapse of restrictions on, stock awards, 652,645 shares were available for future grants.

Stock Options

Stock options are accounted for in accordance with the provisions of FASB ASC 718, *Stock Compensation*. FASB ASC 718 requires all share-based payments to employees, including grants of employee stock options, be recognized in financial statements based on their grant date fair value over the requisite service period. Compensation expense for stock-based awards is included in the operating, selling, general and administrative expense section of the consolidated statements of income and comprehensive income.

Stock options are valued at the date of the award, which does not precede the approval date, and compensation cost is recognized on a straight-line basis over the vesting period. Stock options granted to employees generally become exercisable over a four-year period from the date of grant and generally expire ten years after the date of grant. Stock options granted to the Board of Directors generally become exercisable on the date of grant and generally expire ten years after the date of grant.

A summary of the status of the Company's stock options at September 30, 2009, 2008 and 2007 and changes during the years then ended is presented below:

	2009		2008		2007	
	Shares	Wtd. Avg. Ex. Price	Shares	Wtd. Avg. Ex. Price	Shares	Wtd. Avg. Ex. Price
Outstanding, beginning of year	210,850	\$3.67	117,850	\$4.20	104,750	\$4.01
Granted	–	–	100,000	\$3.00	30,000	\$3.45
Exercised	–	–	(7,000)	\$2.89	(16,900)	\$1.69
Canceled	(62,000)	\$4.23	–	–	–	–
Outstanding, end of year	<u>148,850</u>	\$3.43	<u>210,850</u>	\$3.67	<u>117,850</u>	\$4.20
Exercisable, end of year	<u>88,850</u>	\$3.72	<u>105,850</u>	\$4.21	<u>110,350</u>	\$3.15

Information about the Company's outstanding and exercisable stock options at September 30, 2009 is as follows:

Exercise Price	Stock Options Outstanding	Exercisable Stock Options Outstanding	Remaining Contractual Life
\$3.001	80,000	20,000	8.9 years
\$3.450	15,000	15,000	7.5 years
\$5.780	15,000	15,000	6.5 years
\$4.620	15,000	15,000	5.5 years
\$4.400	3,000	3,000	4.5 years
\$1.650	2,000	2,000	3.5 years
\$0.810	2,000	2,000	2.5 years
\$1.500	4,850	4,850	1.5 years
\$3.125	<u>12,000</u>	<u>12,000</u>	0.5 years
	<u>148,850</u>	<u>88,850</u>	

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

No nonqualified stock options were granted in fiscal year 2009. In the fourth quarter of fiscal year 2008, the Company granted nonqualified stock options to certain executives and employees of the Company totaling 100,000 shares. In the second quarter of fiscal year 2007, the Company granted nonqualified stock options to outside directors and executives totaling 30,000 shares. The Company estimated the fair value of the options granted using the Black-Scholes option valuation model and the assumptions shown in the table below. The Company estimated the expected term of options granted based on the historical grants and exercises of the Company's options. The Company estimated the volatility of its common stock at the date of the grant based on both the historical volatility as well as the implied volatility on its common stock, consistent with FASB ASC 718. The Company based the risk-free rate that was used in the Black-Scholes option valuation model on the implied yield in effect at the time of the option grant on U.S. Treasury zero-coupon issues with equivalent expected terms. The Company has never paid cash dividends on its common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company used an expected dividend yield of zero in the Black-Scholes option valuation model. The Company amortizes the resulting fair value of the options ratably over the vesting period of the awards. The Company used historical data to estimate the pre-vesting options forfeitures and records share-based expense only for those awards that are expected to vest.

The estimated fair value at date of grant for stock options utilizing the Black-Scholes option valuation model and the assumptions that were used in the Black-Scholes option valuation model for the years ended September 30, 2008 and 2007 are as follows:

	<u>2008</u>	<u>2007</u>
Estimated fair value of options at grant date	\$108,680	\$48,060
Black-Scholes model assumptions:		
Average expected life (years)	6.25	5.50
Average expected volatility factor	30%	25%
Average risk-free interest rate	3.1%	4.5%
Average expected dividends yield	-	-

Compensation expense related to stock options recorded for the years ended September 30, 2009, 2008 and 2007 is as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Fiscal year 2006 grant	\$ 3,063	\$ 6,510	\$12,254
Fiscal year 2007 grant	-	-	48,060
Fiscal year 2008 grant	<u>48,771</u>	<u>14,151</u>	<u>-</u>
Total compensation expense	<u>\$51,834</u>	<u>\$20,661</u>	<u>\$60,314</u>

For the options granted in fiscal years 2006 and 2008, the Company is recording compensation expense over the vesting term of the related options. All of the options granted in fiscal year 2007 were fully vested and, as such, their calculated fair value was expensed on the grant date.

Restricted stock

The Company granted restricted stock in March 2009 and 2008 to its Board of Directors totaling 46,669 shares and 16,359 shares, respectively, which were valued at market value on the date of grant. The shares are held by the Company for 12 months and are delivered to the directors at the end of the 12 month holding period. The fair value of the shares upon issuance totaled \$70,000 for both fiscal year grants and is amortized over the 12 month holding period as

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

compensation expense. Compensation expense related to restricted stock recorded for the years ended September 30, 2009 and 2008 is as follows, no such grants were made for year ended September 30, 2007:

	<u>2009</u>	<u>2008</u>
Fiscal year 2008 grant	\$29,169	\$40,831
Fiscal year 2009 grant	40,831	—
	<u>\$70,000</u>	<u>\$40,831</u>

Preferred Stock

All of the shares of the Company's Series B 7% Cumulative Preferred Stock were redeemed for \$12.0 million on November 27, 2007 by utilizing proceeds from the \$16.3 term loan under the Revolving Credit and Term Loan Agreement. These shares of preferred stock were beneficially held by David E. Chymiak, Chairman of the Company's Board of Directors, and Kenneth A. Chymiak, President and Chief Executive Officer of the Company, and his spouse.

Note 8 – Treasury Stock

In 2000, our Board of Directors authorized the repurchase of up to \$1.0 million of outstanding shares of our common stock from time to time in the open market at prevailing market prices or in privately negotiated transactions. The repurchased shares of common stock will be held in treasury and used for general corporate purposes including possible use in our employee stock plans or for acquisitions. During fiscal year 2009, we acquired in the open market and in a privately negotiated transaction a total of 202,864 shares of our Company's common stock at an average price of \$1.74 per share. Repurchases are made in compliance with the safe harbor provisions of Rule 10b-18, which limits the timing, volume, price and method of stock repurchases. When combined with the treasury shares purchased in prior years, the Company can purchase additional shares that have a combined value of up to \$0.6 million under this program.

Note 9 – Retirement Plan

The Company sponsors a 401(k) plan that allows participation by all employees who are at least 21 years of age and have completed one year of service. The Company's contributions to the plan consist of a matching contribution as determined by the plan document. Costs recognized under the 401(k) plan for the years ended September 30, 2009, 2008 and 2007 were \$0.2 million, \$0.2 million and \$0.3 million, respectively.

Note 10 – Earnings per Share

Basic and diluted earnings per share for the years ended September 30, 2009, 2008 and 2007 are:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net income	\$3,019,004	\$4,667,794	\$7,430,339
Dividends on preferred stock	—	133,480	840,000
Net income attributable to common shareholders	<u>\$3,019,004</u>	<u>\$4,534,314</u>	<u>\$6,590,339</u>
Basic weighted average shares	10,162,122	10,263,365	10,237,331
Effect of dilutive securities:			
Stock options	2,094	17,771	13,504
Diluted weighted average shares	<u>10,164,216</u>	<u>10,281,136</u>	<u>10,250,835</u>

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Earnings per common share:

Basic	\$0.30	\$0.44	\$0.64
Diluted	\$0.30	\$0.44	\$0.64

The table below includes information related to stock options that were outstanding at the end of each respective year but have been excluded from the computation of weighted-average stock options for dilutive securities due to the option exercise price exceeding the average market price per share of our common stock for the fiscal year.

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Stock options excluded	140,000	60,000	60,000
Weighted average exercise price of stock options	\$3.56	\$5.30	\$5.30
Average market price of common stock	\$1.80	\$4.48	\$4.53

Note 11 – Related Parties

Cash used in financing activities of \$1.6 million, \$1.6 million and \$0.8 million in 2009, 2008 and 2007, respectively, was used to pay dividends on the Company’s Series B Preferred Stock, which was beneficially owned by David E. Chymiak, Chairman of the Company’s Board of Directors, and Kenneth A. Chymiak, President and Chief Executive Officer of the Company, and for note payments on a term loan that was used to finance the redemption of the Series B Preferred Stock on November 27, 2007.

On November 20, 2006, the Company purchased a facility for approximately \$3.3 million from Chymiak Investments, LLC, which is owned by David E. Chymiak and Kenneth A. Chymiak. The amount paid for the facility represented the combined acquisition cost and modification costs paid for the facility by Chymiak Investments LLC. The Company financed the purchase with cash flows from operations and proceeds from a \$2.8 million Term Note dated November 20, 2006, under the Third Amendment to the Revolving Credit and Term Loan Agreement with its primary financial lender.

The Company leased several warehouse properties in Oklahoma from two companies owned by David E. Chymiak and Kenneth A. Chymiak. At September 30, 2009, all of the leases have expired, and one property continues to be rented on a month-to-month basis. The total payments made on the leases to these two companies for the years ended September 30, 2009, 2008 and 2007 totaled \$0.1 million, \$0.2 million and \$0.3 million, respectively.

David E. Chymiak and Kenneth A. Chymiak beneficially owned 26% and 22%, respectively, of the Company’s outstanding common stock at September 30, 2009.

Note 12 – Commitments and Contingencies

The Company leases and rents various office and warehouse properties in Oklahoma, California, Georgia and Pennsylvania. The Oklahoma facility is a 56,000 square foot warehouse and is rented on a month-to-month basis, since the lease expired in September 2008, from an entity that is controlled by David E. Chymiak and Kenneth A. Chymiak. The Company leases other warehouse and office facilities in California, Georgia and Pennsylvania. The terms on these operating leases vary but all mature in 2 years or less and contain renewal options.

ADVANTAGE TECHNOLOGIES GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Rental payments associated with leased properties in fiscal years 2009, 2008 and 2007 totaled approximately \$0.3 million, \$0.5 million and \$0.6 million, respectively. The Company's minimum annual future obligations as of September 30, 2009 under all existing operating leases are as follows:

2010	\$266,947
2011	<u>43,316</u>
Total	<u>\$310,264</u>

Note 13 – Subsequent Events

Management has evaluated all subsequent events occurring since September 30, 2009 through December 16, 2009, the date of the independent registered public accounting firm's report. There have been no subsequent events that would require changes to the accompanying financial statements or disclosure therein.

Note 14 – Quarterly Results of Operations (Unaudited)

The following is a summary of the quarterly results of operations for the years ended September 30, 2009, 2008 and 2007:

	<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>
Fiscal year ended 2009				
Net sales and service income	\$ 12,800,006	\$ 10,126,636	\$ 9,148,907	\$ 10,168,043

Diluted earnings per common share	\$ 0.14	\$ 0.15	\$ 0.19	\$ 0.16

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Hogan & Slovacek, P.C., the firm that had served as our independent registered public accounting firm since January 26, 2006, announced that it was combining with the firm of Tullius Taylor Sartain & Sartain LLP, on January 7, 2009. As a result, Hogan & Slovacek resigned as our accounting firm as of January 7, 2009, and our audit committee engaged the successor firm, which is named HoganTaylor LLP (“HoganTaylor”), on January 7, 2009, to serve as the principal accountant to audit our financial statements for the current fiscal year. The respective employees, partners and shareholders of the merged firms have become employees and partners of HoganTaylor which will continue the practices of each of the merged firms. Hogan & Slovacek will remain in existence solely for the purpose of winding up its affairs but will not engage in any public accounting practice.

While HoganTaylor is technically a new firm, because it is a successor firm to our prior accountants, we do not consider this a substantive change of accounting firms. Also, as this is a newly created firm, there have been no pre-engagement consultations or contacts with HoganTaylor.

The reports of Hogan & Slovacek regarding our financial statements for the fiscal years ended September 30, 2007 and 2008 did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During the years ended September 30, 2007 and 2008, and during the period from October 1, 2008 through January 7, 2009, the date of resignation, there were no disagreements with Hogan & Slovacek on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Hogan & Slovacek would have caused it to make reference to such disagreement in connection with its report.

Item 9A(T). Controls and Procedures.

Evaluation of Disclosure Controls and Procedures.

We maintain disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed by us in the reports that we file or submit to the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified by the Commission’s rules and forms, and that information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Our Chief Executive Officer and Chief Financial Officer evaluated our disclosure controls and procedures as of September 30, 2009. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

Management’s Annual Report on Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) and for the assessment of the effectiveness of internal control over financial reporting. Our internal control system was designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of financial statements in accordance with accounting principles generally accepted in the United States. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorization of our management and board of directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and

presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of September 30, 2009. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework. Based on our assessment, we believe that, as of September 30, 2009, our internal control over financial reporting is effective based on those criteria.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting.

During the fourth quarter ended September 30, 2009, there has been no change in our internal controls over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

The information required by this item concerning our officers, directors, compliance with Section 16(a) of the Securities Exchange Act of 1934, as amended, Code of Business Conduct and Ethics and Audit Committee is incorporated by reference to the information in the sections entitled “Identification of Officers,” “Election of Directors,” “Section 16(a) Beneficial Ownership Reporting Compliance,” “Code of Ethics” and “Audit Committee,” respectively, of our Proxy Statement for the 2009 Annual Meeting of Shareholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended September 30, 2009 (the “Proxy Statement”). A copy of our Code of Business Conduct and Ethics is posted on our website at www.addvantagetech.com.

Item 11. Executive Compensation.

The information required by this item concerning executive compensation is incorporated by reference to the information set forth in the section entitled “Compensation of Directors and Executive Officers” of the Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The information required by this item regarding security ownership and equity compensation plans is incorporated by reference to the information set forth in the section entitled “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters” of the Proxy Statement.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

The information required by this item regarding certain relationships and related transactions and director independence is incorporated by reference to the information set forth in the section entitled “Certain Relationships and Related Transactions” and “Board of Directors,” respectively, of the Proxy Statement.

Item 14. Principal Accounting Fees and Services.

The information required by this item regarding principal accounting fees and services is incorporated by reference to the information set forth in the section entitled “Principal Accounting Fees and Services” of the Proxy Statement.

PART IV

Item 15. Exhibits, Financial Statements Schedules.

- (a) 1. The following financial statements are filed as part of this report in Part II, Item 8.
- Report of Independent Registered Public Accounting Firm for 2009, 2008 and 2007.
- Consolidated Balance Sheets as of September 30, 2009 and 2008.
- Consolidated Statements of Income for the years ended September 30, 2009, 2008 and 2007.
- Consolidated Statements of Changes in Shareholders' Equity for the years ended September 30, 2009, 2008 and 2007.
- Consolidated Statements of Cash Flows for the years ended September 30, 2009, 2008 and 2007.
- Notes to Consolidated Financial Statements.
2. The following financial statement Schedule II – Valuation and Qualifying Accounts for the years ended September 30, 2009, 2008 and 2007 is filed as part of this report. All other financial statement schedules have been omitted because they are not applicable or are not required or the information required to be set forth therein is included in the financial statements or notes thereto contained in Part II, Item 8 of this current report.

Schedule II – Valuation and Qualifying Accounts

	Balance at Beginning <u>of Period</u>	Charged to Costs and <u>Expenses</u>	<u>Write offs</u>	<u>Recoveries</u>	Balance at End <u>of Period</u>

Exhibit 31.1

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Kenneth A. Chymiak, certify that:

1. I have reviewed this annual report on Form 10-K of ADDvantage Technologies Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Tulsat

An exclusive Master Distributor for Cisco (formerly Scientific-Atlanta). In short order, Tulsat has emerged as the CATV industry's preeminent resource for new and reconditioned headend, RF and optoelectric equipment; factory-trained technical repair; and the responsive turnaround cable operators depend on.

NCS Industries

From hard-to-find analog products to the latest broadband components, NCS offers a comprehensive product inventory and the end-to-end equipment solutions cable networks depend on.

ComTech Services

An in-demand resource for new, surplus and reconditioned CATV products from the industry's largest manufacturers. ComTech has earned an outstanding reputation for its large, multi-brand inventory and repair center.

Tulsat-West

With a full line of new, reconditioned, and system-critical CATV equipment, Tulsat-West offers a wealth of broadband equipment, fiber-optic products and test equipment that keeps cable operators on the leading edge. With a state-of-the-art repair facility that specializes in amplifiers, fiber optics, digital and analog headend, test equipment and power supplies, Tulsat-West is a one-stop shop for complete technical service.

Broadband Remarketing International

Established in 1998, BRI is a leader in the redistribution of reconditioned digital set-top converter terminals and cable modems from industry leaders such as Motorola and Cisco. In addition, BRI provides converter and modem destruction in compliance with EPA regulations through the Resource Conservation and Recovery Act (RCRA), which designates "cradle to grave" requirements for large generators of electronic scrap.
