Nave Communications Receives Responsible Recycling (R2) Certification

Jessup, Maryland, June 22, 2015 ó Nave Communications, a subsidiary of ADDvantage Technologies Group, Inc. (NASDAQ: AEY), announced today that it has received Responsible Recycling (R2) certification, the highest industry standard for environmental responsibility and safety. Nave Communications' recycling program was recommended for this certification after successful completion of a rigorous third-party audit of its operational environmental performance.

õThe implementation of R2 at Nave Communications has been a significant step in our continuous improvement of our processes at our facility,õ said Doug Nave, President of Nave Communications. õIn addition to our other certifications of TL9000, ISO 14001, and OHSAS 18001, our customers can be assured that we will responsibly manage their materials all the way to final disposition.õ

R2 certification promotes the safe and effective recovery and reuse of electronic equipment and materials, minimizes environmental and public health risks, guards downstream control of the recycling chain, and demonstrates compliance with domestic and international laws. R2 is a U.S. Environmental Protection Agency-recognized (õEPAõ) accreditation standard that helps to ensure electronics recyclers remain accountable for their processes while also helping to protect supply chain employees, and others, who are exposed to e-waste. The R2 audit involves a seven-step process that evaluates over 50 areas of operational performance.

About Nave Communications

Nave Communications provides quality used telecommunication networking equipment to its world-wide customer base of telecommunications providers and resellers by utilizing its inventory from a broad range of manufacturers as well as other supply channels. In addition, Nave offers its customers decommissioning services for surplus and obsolete equipment, which it in turn processes through its recycling services.

About ADDvantage Technologies Group, Inc.

ADDvantage Technologies Group, Inc. (NASDAQ: AEY) supplies the cable television (CATV) and telecommunications industries with a comprehensive line of new and used system-critical network equipment and hardware from a broad range of leading manufacturers. The equipment and hardware ADDvantage distributes is used to acquire, distribute, and protect the communications signals carried on fiber optic, coaxial cable and wireless distribution systems, including television programming, high-speed data (Internet) and telephony. In addition, ADDvantage operates a national network of technical repair

centers focused primarily on CATV equipment and recycles surplus and obsolete CATV and telecommunications equipment.

ADDvantage operates through its subsidiaries, Tulsat, Tulsat-Atlanta, Tulsat-Nebraska, Tulsat-Texas, NCS Industries, ComTech Services and Nave Communications. For more information, please visit the corporate web site at www.addvantagetechologies.com.
